PETRON FUELS SAFE AND ENJOYABLE JOURNEYS THIS RAYA

KUALA LUMPUR – Malaysia's vibrant and rich tapestry of cultures is beautifully reflected in its diverse and colorful festive seasons. And as people travel to their hometowns or holiday destinations, traffic volumes increase compared to regular days. In line with the upcoming Hari Raya celebration, Petron Malaysia, in collaboration with the Road Transport Department (JPJ) and the Royal Malaysia Police (PDRM), launched its road safety programme at Petron MRR2 Selayang to raise awareness on the importance of safe driving practices.

"Safety has always been a priority at Petron. We have a program specifically for schools and universities in areas with high fatality rates. This aims to educate new drivers and riders in line with the Ministry of Transport's Road Safety Plan 2022-2030, which seeks to achieve a 50% reduction in road deaths by 2030, ultimately aiming for zero fatalities. Furthermore, our strategic partnership with the PDRM for the Go-To-Safety-Point (GTSP) program transforms our stations into safe shelters where the public can seek assistance during emergencies. We hope that today's program serves as a reminder for everyone to stay vigilant and drive responsibly, especially with Hari Raya approaching," said Shaliza Mohd. Sidek, Head of Retail Business Petron Malaysia.

The Company also collaborated with **Carro, Gramp's Asia, IGL Coatings, Rider Gate** and **NESQ** for a series of activities and giveaways. To increase awareness about micro-sleep, Gramp's Asia offered samples of their botanical car spray to help refresh drivers on the road. In addition to monitoring drivers' conditions, it is also essential to ensure that

vehicles are well-maintained. IGL Coatings provided products designed to improve visibility and reduce eye fatigue when applied to car windscreens. Furthermore, Carro and Rider Gate gave complimentary vehicle inspection for cars and motorcycles, ensuring the vehicles' safety and roadworthiness. Customer can also look forward to a complimentary car service voucher for customer who download the Carro Care app. NesQ also distributed their signature coffee and roselle product samples.

"Road safety is a shared responsibility of both drivers and pedestrians not only during high-traffic periods but at all times. PDRM remains committed to working closely with our partners to promote awareness, enforce safety measures, and ensure safer journeys for all Malaysians. Let us continue this close collaboration and work towards reducing the number of road accidents and make safety everyone's priority every day," stated Bukit Aman Crime Prevention and Community Safety Department (JPJ) Director Police Commissioner Datuk Wan Hassan Wan Ahmad.

"One of the initiatives carried out by PDRM is the GTSP, which is a collaborative initiative between the PDRM and oil companies to provide safe shelter to the community during emergencies. Through this programme, the service stations nationwide now function as first aid centres for individuals who need immediate assistance, whether due to crime or accidents. The main objective of the GTSP is to provide a safe location for individuals who need immediate assistance. In addition, the GTSP can open up opportunities for companies to fulfil their corporate social responsibilities.

Since 2013, Petron has transformed most of their service stations into community assistance centres through the GTSP programme. In 2024, PDRM recognised 54 Petron service station dealers for their outstanding contributions to this program. Through the GTSP programme, participating service stations function as safe shelters for individuals in

need of immediate assistance, ensuring the safety and well-being of the local community,” added Datuk Wan Hassan Wan Ahmad.

Petron remains dedicated to the safety and well-being of its customers and communities. The Company will continue to utilise its wide network and safety programmes to raise road safety awareness and provide early assistance through its GTSP programme.

###

About Petron Malaysia

Petron Malaysia is part of Petron Corporation in the Philippines, an emerging and rapidly evolving Asian oil company. Petron Corporation joined Malaysia's dynamic and progressive market with the acquisition of ExxonMobil's downstream business in March 2012.

Petron Malaysia owns and operates Petron Port Dickson Refinery (PDR), producing a wide range of petroleum products which include gasoline, diesel, liquefied petroleum gas (LPG) and aviation fuel. Our world-class fuels are distributed from 10 strategically located depots and terminals of Petron subsidiaries in Malaysia to more than 800 Petron service stations nationwide. Our Treats convenience stores provide one-stop service experience to travelers on the road.

Our LPG brand, Petron Gasul provides efficient energy for Malaysian households. For convenience, Gasul is now available for cash and carry at selected Petron service stations.

Beyond our business agenda, we take our corporate and social citizenship to heart by supporting safety, environment and education programmes to ensure sustainability and contribute to social development. Through its volunteerism programs, Petron and its employees championed many local causes mostly to contribute to local social development.

Petron Malaysia is committed to its vision to be the leading provider of total customer solutions in the oil sector and allied businesses.
